RITRON
WIRELESS SOLUTIONS

OutPost XT Callbox

Wireless Access Control

Remote Gate Control & Wireless Voice Communication.

Keep Gated Areas SECURE!

Rugged, industrial grade system allows long-range, (measured in miles, not feet), wireless voice communication with visitors and remote control of gates from a portable or base station radio. Easy to install, no trenching required, and cost effective!

GateGuard®

Control gates with portables or base stations

Portable radios allow personnel to talk to visitors at the gate from anywhere in the facility.

VHF/UHF Portable Radios

Base Station provides a "fixed" communication/intercom station, desk-top or wall-mount.

Desktop Base Station

The GateGuard® system is also compatible with these Ritron wireless products!

J Series Portable Radio

LoudMouth Wireless PA System

RPM 60 Series Mobile Radio

Liberty Repeater
2 Watt & 5 Watt Models

Teleswitch Wireless
Switch Control

The Ritron GateGuard system consists of a rugged, wireless intercom/callbox with customized features that work with any combination of Ritron portable radios and desktop base stations—or can be programmed to work with virtually any other brand of VHF or UHF business band radio.

Wireless Voice Communication and

Control Right Where You Need It!

- Long Range Communication, (up to 2 miles line-of-sight), from gate to radio-equipped personnel
- No Trenching Required —easy installation
- Weather Proof and Tamper Resistant
- "License-Free" VHF models available
- Battery Powered or external power capable
- PC and Field Programmable
- Works with most VHF or UHF business band radios
